

Writing Numbers

A straight line down makes a **ONE**, writing numbers can be fun!

Around the bend and straight to you, that's how you make the number **TWO**!

Around a tree and around a tree, this is the number known as **THREE**!

Down half way then turn right, a tall straight stick and **FOUR** is in sight!

The number **FIVE** has a big fat tummy, with his hat he looks so funny!

Pull the line down then go around, the number **SIX** we have found!

Across the sky and down from heaven, this is the number known as **SEVEN**!

Make an S but do not wait, go back to the top and you've got an **EIGHT**!

Make an oval then a line, this is how we make a **NINE**!
